To Whom It May Concern,

Please consider this a request under Title 10, section 7005-1.4 for all DHS records available regarding any previous DHS investigations or contacts with Lyndsey Dawn Fiddler, who has been charged with second-degree manslaughter in the death of her 10-day-old baby, Maggie May Trammel, in Washington County. Fiddler was arrested on Nov. 4 and charged Nov. 8.

In keeping with the previous DHS practice of releasing information under this law, please include the dates and outcomes of previous abuse and neglect allegations and investigations in the home prior to Maggie's death. For example, in summaries released June 21, 2005, after the death of Keenan Taylor and on Nov. 30, 2005, after the death of Gregory Rios, DHS reported the dates, complaints and outcomes of abuse and neglect allegations involving other children.

Before incurring any fees in excess of \$100, please inform me in advance. If you have any questions regarding this request, you can call me at 918-581-8376. Thank you for assisting me with this request.

Sincerely,

Ginnie Graham
